I may never have become a cricketer and this book would certainly not have been written, if an eagle-eyed relation, Mr. Narayan Masurekar, had not come into my life the day I was born, July 10, 1949. It seems that Nan-Kaka, who had come to see me in hospital on my first day in this World, noticed a little hole near the top of my left earlobe. The next day he came again and picked up the baby lying on the crib next to my mother. To his utter, horror, he discovered that the baby did not have the hole on the left ear lobe. A frantic search of all the cribs in the hospital followed, and I was eventually located sleeping blissfully beside a fisherwoman, totally oblivious of the commotion I had caused ! The mix-up it appears, followed after the babies had been

given their bath. Providence had helped me to retain my true identity, and in the process, charter the course of my life. I have often wondered what would have happened if nature had not 'marked' me out, and given me any 'guard' by giving me that small hole on my left ear lobe, and if Nan-Kaka had not noticed this abnormality.

Questions :

(i) When was Sunil Gavaskar born ?

(ii) What did Sunil's uncle Mr. Narayan Masurekar notice when he came to see the baby in hospital ?

(iii) What was the horrible thing that happened the next day ?

(iv) Where was the missing child found ?

One of the most widely bad habit is the use of tobacco. It was brought to Europe from America by Sir Walter Releigh centuries ago and has now spread every where. It is extremely difficult to get rid of this habit.
