Green marks 70 or above, red below 35. The last column is the change against this institution's own 2024 rank. Perception comes from a survey, so newer and regional institutions often score low on it even where teaching and outcomes are strong.

How to use this list

- Entrance exams. Admission depends on the course; CUET UG covers many central and state universities.
- A rank is not a ranking of your experience. NIRF measures the institution as a whole, not the individual course or department. One ranked lower overall may still be stronger for the one you want.
- Participation is voluntary. A good institution missing here may simply not have submitted data. Absence is not evidence of poor quality.
- Check the year. These are India Rankings 2025 figures, released September 2025. The 2026 edition is expected later in 2026 and will supersede them.

Compiled from NIRF India Rankings 2025, including the alphabetical rank-band listings, with year-on-year movement calculated against NIRF 2024.
