12. 'Importance of Trees'

Trees play important role in our ecosystem. Trees provides us food, shelter and clothes. Trees provides us rain and they helps to maintain ecological balance. Tree roots holds the soil from washing away. They controls the velocity and intensity of rain by obstructing the rain droplets by their leaves. They gives us wood to make our houses, to burn them in winters and to build transport. That's why "Trees are our green gold".

Trees gives us the most precious thing for our survival, that is Oxygen. We have to plant more and more trees for future generations.
