Which of the following statements is true according to Martin:

a) The internet has led to the amplification of the already existing concerns and issues for women.

b) The lack of validity of information on the digital space and its limited sensitivity towards the women audiences, has led to the emergence of an alternative form of activism which lacks the scope for movement within the society due to its weak structure of invalid information.

c) The internet does not provide equal power distributions and for women there exist certain digital spaces which reflect hostility in terms of engagement. In the case of nature of information, women find it difficult to find appropriate information sources on the digital space due to strong marketing mechanisms which largely focus on commercial content.
