Ranked colleges

These are the only colleges from Chhattisgarh that NIRF placed inside the national top 100 for Engineering in 2025. The change column compares each against its own 2024 rank.

Rank	College	City	Score	vs 2024
72	**Indian Institute of Technology Bhilai**	Durg	50.37	▲ 1 (was 73)
86	**National Institute of Technology, Raipur**	Raipur	47.59	▼ 15 (was 71)

Why these colleges rank where they do

A NIRF score is the weighted sum of five parameters, each marked out of 100. Two colleges with similar totals can be very different places to study, so it is worth reading across the row rather than only looking at the rank.

College	TLR 30%	RPC 30%	GO 20%	OI 10%	PERCEPTION 10%
Indian Institute of Technology Bhilai	76.99	24.97	65.13	59.02	8.47
National Institute of Technology, Raipur	54.86	39.87	66.26	54.45	4.77

TLR Teaching, Learning & Resources RPC Research and Professional Practice GO Graduation Outcomes OI Outreach and Inclusivity PERCEPTION Perception

Green marks a score of 70 or above; red marks below 35. Perception is scored from a survey of academics, employers and the public, so newer and regional institutions often score low there even when their teaching and outcomes are strong — read a low Perception number with that in mind rather than as a verdict on the campus.

Colleges in the published rank-bands

Beyond the top 100, NIRF stops assigning individual ranks and publishes institutions alphabetically inside a band. A college listed at 101–150 is not ranked 101; it is somewhere in that range, and NIRF does not say where. No scores are released for these.

How to use this list

- Entrance exams. CG PET governs the Chhattisgarh state quota. JEE Main is used for NIT, IIIT and GFTI seats, and JEE Advanced for the IITs.
- A rank is not a ranking of your experience. NIRF measures the institution as a whole, not the individual branch, such as CSE or ECE. An institution ranked lower overall may still be the stronger choice for the one you want.
- Participation is voluntary. A good college missing from this list may simply not have submitted data. Absence is not evidence of poor quality.
- Bands hide detail. Inside 101–150 or 201–300 the colleges are listed alphabetically, so position in that list carries no meaning at all.
- Check the year. These are the India Rankings 2025 figures, released September 2025. The 2026 edition is expected later in 2026 and will supersede them.
