LGR**Marks****Purchase to pay process****(1) Vendor creation process**

Procurement team maintains list of vendors along with the agreed prices in WSM system. In case of better prices being available, the procurement team sends an initial requirement list to the prospective vendor. The initial requirements contain details such as government proofs and tax registrations. On receipt of the requirements from the vendor, the procurement team verifies the same to ensure validity of documents shared. Once the data requirements are fulfilled, the draft agreement is prepared by legal department and the proposal is shared for senior management approval. Once approved, the vendor is added to the list of vendors in WSM application.

(2) Purchase Requisition (PR) & Purchase Order (PO)

Individual employees and designated department heads can raise PR. The PR contains the item details and quantity. The PR is raised in IJK tool which has in - built workflow for PR processing. The PR is sent to supervisor of the requestor for business approval. Thereafter, it is transferred to procurement team for further processing. Procurement team verifies the requested items and approvals. Then it first checks whether any stock is available in house or at any other office location. If not, then it identifies appropriate vendor and raises PO in WSM application for the requested quantity and agreed amount.

(3) Goods receipt & invoicing

(a) In case of non-factory items: On delivery of the requested item, requestor performs receipt by collecting the items and informing procurement team over email that requested items have been received. The invoice is separately sent to Finance for payment. A copy of the invoice is sent to Procurement for their records.

(b) Goods receipt at factory / warehouse: Designated personnel verifies the delivery challan against invoice and unloads the goods. The designated personnel informs the procurement team over email that requested items have been received. The invoice is separately sent to Finance for payment. A copy of the invoice is sent to Procurement for their records.

LGR**Marks****(4) Payment**

Finance checks the PO raised in WSM and matches the same with invoice received. On satisfactory verification of quantity and price, the invoice is approved and payment is released. There may also exist non -PO based expenses for which invoice is the only document. These are processed on invoice receipt and payment released by Finance. Procurement is not involved in these expenses.

(5) Reconciliations & Reporting

On monthly basis, the Finance team files returns and makes payment of GST. The ABC Co advised on Reconciliation and Reporting of GST.

Mr. Rony asked ABC Co Chartered Accountants to explain his senior management and accounts personnel with the help of an example(s) on GST working and calculation of assessable value of the machine and custom duty in order to bring clarity as well as to avoid prosecution and penalty further implementing the same in the process of XYZ Limited. Mr. Rony also advised that the solution to the example(s) should be explained with working notes.

GIST OF DISCUSSION : 1

As AMC is involved in manufacturing of different types of two wheelers in its factories, of late, is concerned with shortage in production and there arose suspicion of inventory fraud. In order to curb the defalcation of inventory, the Management wants to evaluate the options for verifying the process to reveal fraud and the corrective action to be taken.

GIST OF DISCUSSION : 2

One of the subsidiary of AMC is Gogreen Ltd (GL) which is engaged in horticulture, plantation and farming activities on a large scale on a pan India basis. On 01.04.2019, the Company received a government grant of ₹ 40 lakhs subject to a condition that GL will continue to engage in plantation of eucalyptus trees for a continuous period of five years. GL made a reasonable assurance that the entity would comply with the above government's condition of planting eucalyptus trees for a continuous period of five years and accordingly it recognized proportionate grant of ₹ 8 lakhs in its Statement of Profit and Loss as income following the principles laid down under Ind AS.

GIST OF DISCUSSION : 3

GL is one of the key operational creditors of Multicrop Limited (ML) which is engaged in farming activities and was the sole supplier of fertilizers to ML. The arrangement between GL and ML was formally documented through a blanket purchase order on an annual basis with weekly supply schedules and a 30 days credit period. In view of the financial crisis including heavy cash losses of ML, there was a significant backlog in the payment by ML and in line with the terms of the purchase order, the matter was referred to an Arbitral Tribunal with claims and counterclaims by both the parties. The Arbitral Tribunal delivered its award in favour of GL for the entire balance including receivables assigned to the Bank (without recourse basis) by ML and rejected the cross claims of ML. Thereafter, ML proceeded to file a petition under the Arbitration and Conciliation Act, 1996

challenging the award of the Arbitral Tribunal. Based on the opinion of Mr. Nani that the Object of Insolvency and Bankruptcy Code, 2016 (IBC, 2016) is also to hold Promoters personally financially liable for the defaults of the firms they control, an application was filed by GL under Section 9 of the IBC, 2016 as the sole operational creditor of ML. The NCLT, based on the application, admitted the same since there is clear evidence of a demand and the appropriate notice has been submitted by GL as per the IBC, 2016.

GIST OF DISCUSSION : 4

01. While discussing certain matters on Direct Tax Laws, Mr. Durai, one of the participant in the brain storming session opined that under the provisions of the Income Tax Act, 1961, the Assessing Officer (AO) can complete the assessment of Income from International Transaction in disregard of the order passed by the Transfer Pricing Officer (TPO) by accepting the contention of the Assessee.

Other Issues :

02. Mr. Shiva, brother of Mr. Suresh, the Chairman of AMC, is a resident of Malaysia and he owns an immovable property in Bengaluru which he inherited from his father, who was a resident of India. Mr. Suresh wants to know whether Mr. Shiva can continue to hold the property in terms of the Foreign Exchange Management Act, 2002.
03. Mr. Sampath, the MD of the company has put forward a proposal to merge AMC with an unlisted entity "Robust Fitting Works Ltd." (Robust) through an approved restructuring route considering certain business reasons. The MD further added that Robust is going through tough times and all efforts made by the Promoters to revive the entity has become futile and the time has come now to fix the problem with the help of AMC. The MD further added that since AMC is a tax paying entity, through the merger, the possibility of setting off the carry forward losses of "Robust" including the speculative losses is possible.

04. MX Ltd., another subsidiary of AMC has not provided for any tax expense in the books of accounts due to tax losses. The Company has recognized deferred tax assets on the unabsorbed business losses based on Management assessment and on its understanding of Ind AS.
05. One of the wholly owned Indian subsidiary of AMC namely X Ltd was amalgamated and merged with Y Ltd Some workers of X Ltd refused to join as workers of Y Ltd and claimed compensation for premature termination of their services. X Ltd resisted the claim on the ground that their services are transferred to their Company by the Order of Tribunal for amalgamation and merger and therefore, the workers are bound to join the services and cannot claim any compensation.
06. You were informed that AMC committed an offence under the Companies Act, 2013 which is alleged to have been committed by the Company and its officers relating to entering into contracts in which the directors are interested. The Management wants to know the law related to cognizance of an offence under the Companies Act 2013.
