Note : Answer all the questions.

1. Fill in the blanks with the correct symbol/word(s) by selecting from the choices given in the brackets : 10 × 1 = 10
 - i) DOS is an example of software.
(*system, application, package*)
 - ii) controls the operation of a computer.
(*ALU, CPU, Mouse*)
 - iii) The translator which converts assembly level language to machine level language is
(*compiler, interpreter, assembler*)
 - iv) Procedural representation of a flow chart is
(*code, algorithm, arrow*)
 - v) The only special character that is used in a variable is
(*underscore, sum, space*)
 - vi) The escape character used for tab setting is
(*\n, \f, \t*)
 - vii) An expression that outputs a numeric value is called a/an
(*relational expression, arithmetic expression, logic expression*)
 - viii) is an unconditional branching statement.
(*goto, if ... else, for*)
 - ix) The example of relational operator is
(*add, multiple, less than*)
 - x) The default storage class is
(*auto, static, register*)
2.
 - a) What is a flow chart ? 2
 - b) Explain the advantages of machine language. 3
 - c) Draw any five symbols used in system flow chart. 5

3. a) Define constant. 2
b) Which are the limitations of machine language ? 3
c) Write the classifications of C tokens. 5
4. a) Define delimiters. 2
b) Explain mixed mode expression. 3
c) Explain briefly variable declaration with examples. 5
5. a) Write any four delimiters used in C. 2
b) Write a C program to convert degree Fahrenheit to degree Centigrade. 8
6. a) Identify whether the given variable names are valid or not : 2
i) total
ii) 1996
iii) payroll
iv) int
b) Write a C program to check whether the given number is odd or even. 8
7. a) List the bitwise operators provided by C. 2
b) Write a C program to calculate simple interest. 8
8. a) Explain the assignment operator. 2
b) Write a C program to find reverse order of given numbers. 8
9. a) Identify the errors in the following statements, if any : 2
i) $t = \frac{a \times b}{c}$
ii) $S1 = a(p + q).$
b) Write a C program to find the smallest of 3 numbers using conditional operator. 8
