Section-B

Note :- Question Nos. **2** and **3** in Section-B are passage based questions carrying **5** marks each.

2. Read the passage and answer the following questions :

Polluted water contains germs of many diseases and if used for drinking purposes, it causes many communicable diseases like typhoid, cholera, hepatitis etc. The sewage present and polluted water of rivers promotes growth of Phytoplanktons and their excessive growth depletes oxygen present in water. This reduction of oxygen and presence of poisonous wastes affect the fish population and this decrease one of our major

source of food. Water bodies often become biologically barren when polluted water containing poisons like zinc and lead pass through them.

Questions :

(a) What kind of diseases are caused through polluted water ? 1

(b) What do you mean by communicable diseases ? 1

(c) Name the poisonous substances that render water-bodies almost barren in our day-to-day life. 1

(d) What kind of poisons in polluted water lead to depletion of oxygen present in water and what are the subsequent results of this reduction ? 2

3. Read the passage carefully and answer the following questions :

The goal of environmental education is to develop a world population that is aware of and concerned about the environment and its associated problems and which has the knowledge, skills, attitudes, motivations and commitment to work individually and collectively towards the solutions of current problems and the prevention of new ones. The various objectives of environmental education are awareness, knowledge, attitude, skills and participation. One of the most important objective is evaluation ability that helps the individual and social groups to evaluate environmental measures and education programmes in terms of ecological, political, economic, social, aesthetic and educational factors.

Questions :

(a) What is the general objective of environmental education ? 1

(b) What kind of world environmental education aims to develop ? 1

(c) What are the various parameters of environmental education ? 1

(d) What do you understand by evaluation ability as the most important objective of environmental education ? 2

Section–C

Note :– Question Nos. **4–12** in Section–C are Very Short Answer Type Questions carrying **2** marks each. Answer to each question should not exceed **25** words.

4. Write down the names of any *three* Modern Indian Educationists.

5. What do you understand by the meaning of Aim ?
