Exam Date :	12/03/2019

Section : **SI CPO**

Q.1 Select the option that is related to the third term in the same way as the second term is related to the first term.

BDFH : DWDS :: TVYZ : _____

Ans
✗ 1. VDWB
✗ 2. UDWA
✓ 3. VEWA
✗ 4. VEBB

Question ID : **98958010099**
Status : **Not Answered**
Chosen Option : **--**

Q.2 In a code language, QUESTION is written as OPJUTFVR. How will FACTOR be written as in that language?

Ans
✗ 1. QPUDBE
✗ 2. BGDSPU
✓ 3. SPUDBG
✗ 4. SUPEGB

Question ID : **98958010101**
Status : **Not Answered**
Chosen Option : **--**

Q.3 Three of the following four number-pairs are alike in a certain way and one is different. Find the odd one out.

Ans
✓ 1. 8 : 25
✗ 2. 14 : 33
✗ 3. 9 : 23
✗ 4. 5 : 15

Question ID : **98958010112**
Status : **Not Answered**
Chosen Option : **--**

Q.4 Three of the following four words are alike in a certain way and one is different. Find the odd one out.

Ans
✓ 1. Gardening
✗ 2. Carpenter

aglasem.com

3. Tailor

4. Blacksmith

Question ID : **98958010093**
Status : **Answered**
Chosen Option : **1**

Q.5 Select the set of numbers that is similar to the following set of numbers.

{15, 21, 27}

Ans

1. {25, 40, 56}
2. {20, 28, 36}
3. {40, 55, 75}
4. {12, 24, 32}

Question ID : **98958010117**
Status : **Answered**
Chosen Option : **2**

Q.6 Three of the following four words are alike in a certain way and one is different. Find the odd one out.

Ans

1. Sad
2. Jealous
3. Angry
4. Weep

Question ID : **98958010092**
Status : **Marked For Review**
Chosen Option : **2**

Q.7 Select the word-pair in which the two words are related in the same way as are the two words in the following word-pair.

Memory : Amnesia

Ans

1. Old age : Senility
2. Audition : Hearing
3. Cholera : Epidemic
4. Vision : Blindness

Question ID : **98958010097**
Status : **Answered**
Chosen Option : **4**

Q.8 Select the number-pair in which the two numbers are related in the same way as are the two numbers of the given number pair.

5 : 9

Ans

1. 10: 29
2. 12 : 33

aglasem.com

✗ 3. 25 : 79

✓ 4. 17 : 65

Question ID : **98958010111**
Status : **Not Attempted and Marked For Review**
Chosen Option : **--**

Q.9 If HECK is coded as 94410 and DIG is coded as 588, then how will BIKE be coded as?

Ans

✓ 1. 38124

✗ 2. 39105

✗ 3. 19113

✗ 4. 38115

Question ID : **98958010103**
Status : **Answered**
Chosen Option : **1**

Q.10 Which letter will replace the question mark (?) in the following series?

M, N, O, L, Q, J, ?, H

Ans

✓ 1. S

✗ 2. R

✗ 3. K

✗ 4. J

Question ID : **98958010086**
Status : **Not Answered**
Chosen Option : **--**

Q.11 Select the option that is related to the third term in the same way as the second term is related to the first term.

BYWD : DWUF :: AZYB : _____

Ans

✗ 1. CXVB

✗ 2. BYWE

✓ 3. CXWD

✗ 4. BZXC

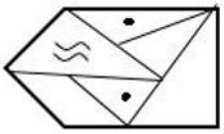

Question ID : **98958010098**
Status : **Not Answered**
Chosen Option : **--**

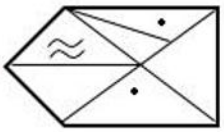

Q.12 Select the correct mirror image of the given figure when the mirror is placed on the right of the figure.

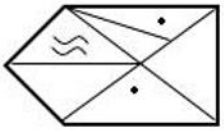

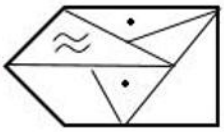

Ans

aglasem.com

1. 

2. 

3. 

4. 

Question ID : **98958010129**
Status : **Marked For Review**
Chosen Option : **1**

Q.13 Which number will replace the question mark (?) in the following series?

3, 5, 7, 8, 15, ?, 31, 26

Ans
1. 21
2. 24
3. 18
4. 14

Question ID : **98958010108**
Status : **Not Answered**
Chosen Option : **--**

Q.14 'Tuesday' is related to 'Mars' in the same way as 'Thursday' is related to '_____'.

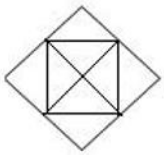

Ans
1. Jupiter
2. Mercury
3. Saturn
4. Venus

Question ID : **98958010095**
Status : **Answered**
Chosen Option : **1**

Q.15

aglasem.com

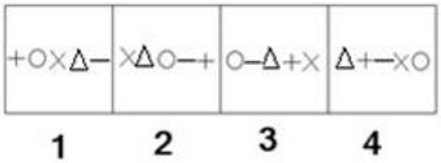

How many triangles are there in the following figure?

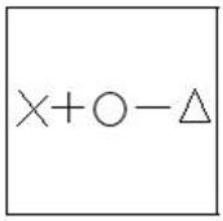

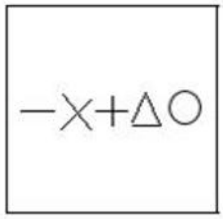

Ans
1. 14
2. 12
3. 8
4. 10

Question ID : **98958010124**
Status : **Marked For Review**
Chosen Option : **2**

Q.16 Select the figure that will come next in the following series.

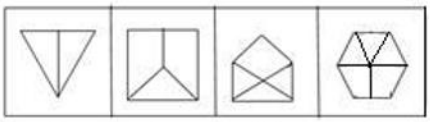

Ans
1. 
2. 
3. 
4. 

Question ID : **98958010123**

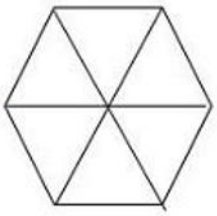

aglasem.com

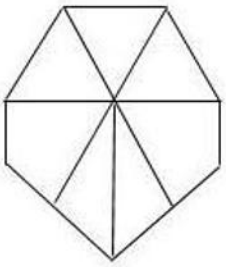

Status : **Answered**
Chosen Option : **2**

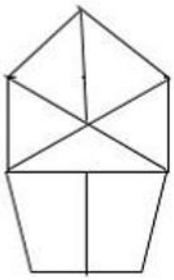

Q.17 Select the figure that will come next in the following figure series.

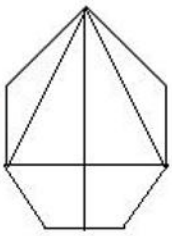

Ans

✗ 1.

✗ 2.

✗ 3.

✓ 4.

Question ID : **98958010122**
Status : **Not Attempted and Marked For Review**
Chosen Option : **--**

Q.18 Priya's school bus was facing north-west when it reached her school. After starting from her house, the bus took one left turn, one right turn and another left turn to reach her school. In which direction was the bus facing when it left Priya's house?

Ans

✗ 1. South-east

✗ 2. North-west

✗ 3. South-west

✓ 4. North-east

Question ID : **98958010131**

Status : **Answered**
Chosen Option : **4**

Q.19 After starting from her house, Sameera walked a few metres towards the East. From there, she took a right turn and walked 100 m, and then took a left turn and walked 30 m. Finally, she took a left turn again and walked 40 m to reach the market. If the air distance between her house and the market is 100 m, how far did Sameera walk towards the East initially from her house?

Ans
✗ 1. 80 m
✓ 2. 50 m
✗ 3. 30 m
✗ 4. 60 m

Question ID : **98958010132**
Status : **Answered**
Chosen Option : **1**

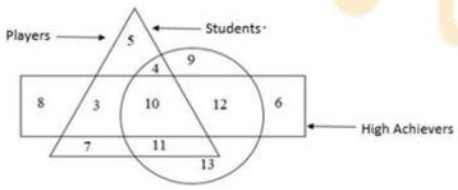

Q.20 Select the correct alternative to indicate the arrangement of the following words in a logical and meaningful order.

1. Sleep
2. Cold
3. Blanket
4. Winter
5. Warm
6. Shop

Ans
✓ 1. 4, 2, 6, 3, 5, 1
✗ 2. 6, 3, 2, 1, 4, 5
✗ 3. 4, 3, 6, 2, 1, 5
✗ 4. 4, 3, 2, 6, 1, 5

Question ID : **98958010089**
Status : **Answered**
Chosen Option : **1**

Q.21 In the following diagram, the triangle represents 'players', the circle represents 'students' and the rectangle represents 'high achievers'. The numbers in different segments show the number of persons.

How many high-achieving students are not players?

Ans
✓ 1. 12
✗ 2. 3
✗ 3. 15
✗ 4. 13

Question ID : **98958010134**
Status : **Answered**
Chosen Option : **1**

Q.22

aglasem.com
SSC CPO

Two statements are given, followed by three conclusions numbered I, II and III. Assuming the statements to be true, even if they seem to be at variance with commonly known facts, decide which of the conclusions logically follow(s) from the statements.

Statements:
Some mangoes are fruits.
No fruit is vegetable.

Conclusions:
I. Some mangoes are vegetables.
II. Some fruits are mangoes.
III. No vegetable is a mango.

Ans
✔ 1. Only conclusion II follows.
✘ 2. Only conclusion I follows.
✘ 3. Only conclusions II and III follow.
✘ 4. Only conclusions I and III follow.

Read the following passage and answer the questions given after it.

Tutankhamun was an Egyptian pharaoh who was buried in a lavish tomb filled with gold artifacts in the Valley of the Kings. His tomb was discovered in 1922 by an archaeological team led by British Egyptologist Howard Carter.

The tomb was mostly intact, an extraordinary find given that most of the tombs in the Valley of the Kings had been looted in ancient times.

But while Tutankhamun's tomb was lavish, historical and archaeological evidence indicates that the young pharaoh was sickly and spent his short rule trying to undo a religious revolution that his father had started.

Tutankhaten (as he was called at birth) was born around the year 1341 B.C. His father was the pharaoh Akhenaten, a revolutionary pharaoh who tried to focus Egypt's polytheistic religion around the worship of the sun disc, the Aten. In his fervor, Akhenaten ordered the names and images of other Egyptian deities to be destroyed or defaced.

Tutankhamun ascended to the throne around 1332 B.C., when he was about 9 years old. Given his young age he would have relied heavily on his advisers. At some point his name was changed to Tutankhamun, removing the word "aten" — a reminder of his father's religious revolution — from his name.

Tutankhamun also condemned his father's actions in a stela (a stone with inscription) found at Karnak, saying that Akhenaten's religious revolution caused the gods to ignore Egypt. Part of the stela reads "the temples and the cities of the gods and the goddesses, starting from Elephantine as far as the Delta marshes … were fallen into decay and their shrines were fallen into ruin, having become mere mounds overgrown with grass … The gods were ignoring this land…"

Archaeological evidence indicates that Tutankhamun suffered from ill health. A study of his remains published in 2010 found that he suffered from a variety of maladies, including malaria and Kohler disease (a rare bone disorder of the foot). A number of canes have been found in Tutankhamun's tomb, finds that support the idea that the pharaoh had difficulty walking at times.

It's not known what killed Tutankhamun. There have been numerous hypotheses put forward over the years. It's been suggested that he died from an infection caused by a broken leg or from injuries suffered in a chariot accident.

The boy king died in 1323 B.C. around the age of 18. His death was unexpected, and his tomb appears to have been finished quickly. Microbes found on the wall of the tomb indicate that the paint on the wall wasn't even dry when the tomb was sealed.

Howard Carter's team discovered the tomb's entranceway on November 4, 1922, and on November 26 they got inside.

While the treasures were incredible, the tomb was unusually small for a pharaoh's burial, containing only 110 square meters (1,184 square feet) of floor space. The tomb's small size may have been because the pharaoh died young and unexpectedly and there wasn't time to carve out a larger tomb.

A study of his remains published in 2010 found that he suffered from a variety of maladies, including malaria and Kohler disease (a rare bone disorder of the foot). A number of canes have been found in Tutankhamun's tomb, finds that support the idea that the pharaoh had difficulty walking at times.

It's not known what killed Tutankhamun. There have been numerous hypotheses put forward over the years. It's been suggested that he died from an infection caused by a broken leg or from injuries suffered in a chariot accident.

The boy king died in 1323 B.C. around the age of 18. His death was unexpected, and his tomb appears to have been finished quickly. Microbes found on the wall of the tomb indicate that the paint on the wall wasn't even dry when the tomb was sealed.

Howard Carter's team discovered the tomb's entranceway on November 4, 1922, and on November 26 they got inside.

While the treasures were incredible, the tomb was unusually small for a pharaoh's burial, containing only 110 square meters (1,184 square feet) of floor space. The tomb's small size may have been because the pharaoh died young and unexpectedly and there wasn't time to carve out a larger tomb.

Read the following passage and answer the questions given after it.

Tutankhamun was an Egyptian pharaoh who was buried in a lavish tomb filled with gold artifacts in the Valley of the Kings. His tomb was discovered in 1922 by an archaeological team led by British Egyptologist Howard Carter.

The tomb was mostly intact, an extraordinary find given that most of the tombs in the Valley of the Kings had been looted in ancient times.

But while Tutankhamun's tomb was lavish, historical and archaeological evidence indicates that the young pharaoh was sickly and spent his short rule trying to undo a religious revolution that his father had started.

Tutankhaten (as he was called at birth) was born around the year 1341 B.C. His father was the pharaoh Akhenaten, a revolutionary pharaoh who tried to focus Egypt's polytheistic religion around the worship of the sun disc, the Aten. In his fervor, Akhenaten ordered the names and images of other Egyptian deities to be destroyed or defaced.

Tutankhamun ascended to the throne around 1332 B.C., when he was about 9 years old. Given his young age he would have relied heavily on his advisers. At some point his name was changed to Tutankhamun, removing the word "aten" — a reminder of his father's religious revolution — from his name.

Tutankhamun also condemned his father's actions in a stela (a stone with inscription) found at Karnak, saying that Akhenaten's religious revolution caused the gods to ignore Egypt. Part of the stela reads "the temples and the cities of the gods and the goddesses, starting from Elephantine as far as the Delta marshes … were fallen into decay and their shrines were fallen into ruin, having become mere mounds overgrown with grass … The gods were ignoring this land…"

Archaeological evidence indicates that Tutankhamun suffered from ill health. A study of his remains published in 2010 found that he suffered from a variety of maladies, including malaria and Kohler disease (a rare bone disorder of the foot). A number of canes have been found in Tutankhamun's tomb, finds that support the idea that the pharaoh had difficulty walking at times.
