35	Every year during autumn and early winter, birds travel from the northern regions of Asia, Europe, and America to the southern warmer lands. They make the return journey again during spring and early summer. Birds are usually punctual unless delayed by bad weather. During their long flights over hills, forests, plains, and large stretches of water, they face many dangers and hardships. Sudden storms can drive them far off course, and some may be blown out to sea and drowned. At night, bright lights can confuse them, slowing their flight. The migration speed of birds usually ranges from 48 to 64 km per hour, rarely exceeding 80 km per hour. The greatest mystery of bird life is their ability to travel such long distances with precision and endurance.	
	a) When do birds travel from northern regions to southern warmer lands and why?	
	Ans : Every year during autumn and early winter, birds travel to warme lands because the northern regions become very cold during this time. They travel to warmer places to find food and shelter.	
	b) What is described as the greatest mystery of bird life?	
	Ans : The greatest mystery of bird life is their ability to travel such

	How did the sailors regain their confidence to overcome a great peril, in the poem ,'Ballad of the Tempest'?	
	Ans: It was a dark, stormy night in winter. A ship was out at sea. Huge waves hit against the ship while the sea was roaring hungrily. The sailors with scared that they would die. So, they crowded together in the cabin. None could sleep. Not even the strongest among them. They sat in the darkness and prayed. As the tempest continued, the captain gave up hope and said that they were lost. At that point, the captain's little daughter held his hand and innocently spoke to her father saying that the same God,who protected them on land would protect them at ocean. Her faith in God filled the seamen with hope. The seamen kissed her for being so hopeful. All of them relaxed and they started cheering each other's spirit. By next morning, the storm cleared and they reached the harbour safely.

37	. **a) Ban on Plastic**	

Plastic things are integral part of human being. We have been using plastic day-to-day for many reasons. We use plastic bags, plastic container, plastic bottles, plastic toys and so on. These are cheaply available in the market. All of these do make our lives easier. But the more we use plastic and dispose of it into the environment, we are facing more risks.

There are numerous reasons to ban plastic. Some of these includes Plastics are non-biodegradable. Thus, disposing them of is the biggest challenge. Waste plastics are polluting the land and water. Plastics have become a threat to the life of animals living on earth as well as in water. Chemicals released by waste plastics enter the soil and make it infertile. Plastics lead to drainage problem. Burning plastic causes air pollution. Plastics are a major cause of environmental pollution. It is necessary to ban plastics before they ruin our planet completely.

We, the educated should control the use of plastic bags. Instead of using plastic bags we should use eco-friendly alternatives to plastic bags. We should carry cloth bags. We should spread awareness about the harmful effects of plastics.

The government has taken many measures to ban single use plastics. However, the implementation of this rule is yet to reach perfection. We should remember to Reduce, Refuse, Reuse and Recycle plastics. “Think green. Avoid plastics”

B) Internet

Today the Internet is the most powerful tool in the world. The Internet is a collection of various services and resources. However, like every single innovation in science and technology, Internet has played an important part in our daily life,

The foremost target of Internet has always been the communication. We can avail the facilities of email; we can chat for hours with our friends. With the help of such services, it has become very easy to establish a kind of global friendship where you can explore other cultures of different countries. Information is the biggest advantage internet is offering. The Internet is a virtual treasure of information. Any kind of information on any topic is available on the Internet., Entertainment is another popular reason explaining why many people prefer to surf the Internet. Downloading games and songs, visiting chat rooms or just surfing the web are some of the pleasures people have discovered. Students have also benefitted immensely with the use of internet. In case any of their lectures gets missed in the class, Internet has all the required information. Online coaching has also benefitted the students who do not have access to good educational institutes in their area for the preparation of competitive exams such as JEE and NEET, etc.

Apart from those advantages, Internet also has some disadvantages; Misuse of internet can spoil our life. These days the teenagers are found addicted to internet as they spend most of their time in internet playing online games, surfing social networking sites etc. As a result, they are lagging behind in their study. On the other hand, lots of people have become the victim of cybercrime. Some anti-social group use internet to deceive people through cheat-funds. Hackers may easily access our personal information that has been stored in internet. There are a host of games that are available on the internet and this has made most children to shun all outdoor activity.

Internet acquaints us with the latest happenings around the world. Internet has made our lives extremely comfortable as well as interesting. Nowadays we can’t live without Internet. 181

Respected sir,
Subject : Accidents Caused by Rash Driving in Our Town

Through the columns of your esteemed newspaper, I would like to draw the attention of the concerned authorities and the public to the growing menace of rash driving in our town. In recent months, there has been a noticeable rise in the number of road accidents caused by reckless and speeding vehicles. Youngsters, in particular, are often seen riding two-wheelers without helmets and ignoring traffic rules. This not only endangers their lives but also poses a serious risk to pedestrians and other drivers. Many accidents have taken place near schools, residential areas, and busy market roads. Despite repeated complaints, traffic regulation is poor, and there is little to no presence of traffic police in key areas.I sincerely request the concerned authorities to take immediate steps, such as stricter enforcement of traffic laws, installation of speed breakers and CCTV cameras, and regular awareness campaigns on road safety. Let us work together to make our roads safer for everyone.

Thank you,

Yours faithfully,
Soorya
