Narrate the conversation between the poet V. K. Gokak and mother India.

Ans - The poem song of India is a conversation between the poet V.K. Gokak and mother India. The poet asks if he could sing about the nature of the Himalayas and the three seas. Mother India, instead asks him to write about beggars and lepers and the hard-working people. When the poet asks the mother if he could sing about the beauty of the temples or about soldiers or seers and prophets, she becomes furious and orders him to sing about millions of hard- working people and helpless poor children dwelling in bleak and dark homes. Further, the poet nervously asks if he could sing about technological and scientific advances like building dams, lakes, Steel Mills, ship building yards. She urges him to add information about strikes and class wars in the society. Finally, when he asks her if he cannot write an unalloyed poem in praise of mother India, she reveals a vision where the beautiful mother, is writing in a book of tomorrow, a bright and clear picture for the country’s future. Ultimately, the poem ends on an optimistic view. The poet is now happy to write about the bright future.

XIII. Write an essay on any one of the following: 1×4=4

37. a) Advantages and disadvantages of Artificial Intelligence

Ans - Artificial Intelligence (AI) is a technology that enables machines to perform tasks that usually require human intelligence. It is widely used in education, healthcare, business and many other fields.AI has several advantages. It can work quickly and accurately, saving both time and effort. AI-powered systems help doctors diagnose diseases, assist students in learning, and improve productivity in workplaces. It can also analyse large amounts of data and provide useful information for better decision-making. AI based devices such as virtual assistants and navigation systems make daily life easier and more convenient. However, AI also has some disadvantages. One major concern is unemployment, as machines may replace workers in certain jobs. Developing and maintaining AI systems can be expensive. AI also raises privacy concerns because it often collects and stores personal information. Another limitation is that AI lacks human emotions, creativity, and moral judgment. It can make mistakes if it is given incorrect or biased data. In conclusion, AI is a powerful technology that offers many benefits, including efficiency, accuracy, and convenience. However, it also presents challenges such as job loss and privacy issues. Therefore, AI should be used wisely and responsibly to ensure that it benefits society while reducing its negative effects.

K.S.R.T.C.,

Kundapura

Dear Sir,

Sub: Request to provide more buses.

I am a resident of Vidyanagar, Udupi. There are more than two hundred families living in this area. There are about ninety college going boys and girls. Many people go to the town for jobs and business. There is only one bus running between Udupi and our area. We find it very difficult to reach the town in time. Sometimes the bus does not come at all. So, on behalf of the residents of this village. I humbly request you to provide two more buses to our area.

Thank you.

Yours faithfully,

Shashank/Shamita
