Direction: Read the passage and answer the following.

LORD DENNING; In summertime village cricket is the delight of everyone. Nearly every village has its own cricket field where the young men play and the old men watch. In the village of Lintz in County Durham they have their own ground, where they have played these last seventy years. They tend it well. The wicket area is well rolled and mown. The outfield is kept short. It has a good club-house for the players and seats for the onlookers. The village team play there on Saturdays and Sundays. They belong to a league, competing with the neighbouring village. On other evenings after work they practice while the light lasts. Yet now after these 70 years a Judge of the High Court has ordered that they must not play there anymore, He has issued an injunction to stop them. He has done it at the instance of a newcomer who is no lover of cricket. This newcomer has built, or has had built for him, a house on the edge of the cricket ground which four years ago was a field where cattle grazed. The animals did not mind the cricket. But now this adjoining field has been turned into a housing estate. The newcomer bought one of the houses on the edge of the cricket

ground. No doubt the open space was a selling point. Now he complains that, when a batsman hits a six, the ball has been known to land in his garden or on or near his house. His wife has got so upset about it that they always go out at weekends. They do not go into the garden when cricket is being played. They say that this is intolerable. So they asked the Judge to stop the cricket being played. And the Judge, feels that the cricket must be stopped: with the consequences, I suppose the Lintz cricket-club will disappear. The cricket ground will be turned to some other use. I expect for more houses or a factory. The young men will turn to other things instead of cricket. The whole village will be much the poorer. And all this because of a newcomer who has just bought a house there next to the cricket ground.

Direction (Q. No. 117- 120): Read the passage and answer the following.

Justice V.R. KRISHNA IYER; In the eye of law, prisoners are persons not animals, and to punish the deviant 'guardians' of the prison system where they go berserk and defile the dignity of the human inmate. Prison houses are part of Indian earth and the Indian Constitution cannot be held at bay by jail officials 'dressed in little, brief authority'. When Part III is invoked by a convict, When a prisoner is traumatized, the Constitution suffers a shock. The courts in America have, through the decisional process, brought the rule of law into the prison system pushing back, pro-tanto, the 'hands-off' doctrine. The content of our constitutional liberties being no less, the dynamics of habeas writs there developed help the judicial process here. The full potential of Articles 21, 19 & 14 after Maneka Gandhi has been unfolded by this Court in Hoskot and Batra. Today, human rights jurisprudence in India has a constitutional status and sweep.
